Message from the Chair and the President & Chief Executive Officer

The Honourable Lisa MacLeod
Minister of Heritage, Sport, Tourism and Culture Industries

Dear Minister MacLeod,

On behalf of Ontario Creates, we are pleased to submit our 2018-2019 Annual Report.

Once again Ontario has shown it’s a great place for the creative industries to do business.

Last year the film and TV sector set another record with $1.9 billion in production volume and 37,000 jobs supported. This was made possible by a labour force that is second to none, world-class facilities, and substantial investment by the Province.

Top Hollywood projects came to Ontario, including *Shazam!* *IT: Chapter Two* and *The Handmaid’s Tale*

Homegrown programs, meanwhile, found audiences and acclaim around the world. For example, Netflix picked up international distribution for the CBC comedy series *Schitt’s Creek* and *Kim’s Convenience*; the former scored four Emmy nominations, and the latter was voted most popular foreign scripted show at the Seoul International Drama Awards.

Good news stories can be found across the creative sectors. The interactive digital media industry is annually contributing more than $3 billion to Ontario’s GDP and accounts for more than 22,000 jobs. The success of Canadian music artists is by now well documented; in the last five years the Ontario Music Fund has supported music recordings that have sold more than 20 million units worldwide.

The Book Fund continues to pay dividends. In 2018/19, recipients reported sales of nearly $5 for every dollar invested by Ontario Creates. Ontario’s magazine media industry is generating more than $800 million in annual revenues and sustaining more than 5,600 jobs.

At Ontario Creates we are proud of the role we play in stimulating economic development in these industry sectors. This document contains many examples of companies that have been able to grow and thrive as a direct result of investment by the Province.

Partnerships also help achieve these results. We teamed with Telefilm Canada at the Toronto International Film Festival to promote Ontario to international decision-makers and again at Cannes to facilitate business-meeting opportunities for Ontario producers. Closer to home, WIFT-T, Hand Eye Society and Interactive Ontario help deliver our IDM Fund Futures programs, imparting business skills to digital content creators.

Operationally, we have become even more efficient. We launched an electronic payment system for grant recipients and were able to improve processing times for film and television credits by 40% to 55%.

We would like to thank former chair Mark Sakamoto and the other outgoing board members for their tremendous contributions and service. And we are grateful to the Government of Ontario for its confidence in us and for its investment through Ontario Creates, enabling the creative industries to make significant contributions to the Province’s economy.

Sincerely,

Aaron Campbell

IDM Success Story

Tiny Titan Studios

Indie game developer Tiny Titan Studios recently released its ninth and most ambitious title, Arena Stars, in which players choose a hero, build a team and take on competitors in the Arena Stars Universe.

Jeff Evans launched Tiny Titan in 2014 as a one-person operation; he now has 17 employees in a downtown London, Ontario space. The shop has a growing fan base for its retro-inspired products, generating revenue from in-game purchases and advertising.

The IDM Fund supported Tiny Titan’s launch of the Dash Quest Heroes game app as well as Arena Stars, and Evans says the tax credits managed by Ontario Creates have also been key. The Ontario Creates funding helps mitigate the risk of upping the scale of a project, resulting in better games.

There have been more than 13 million downloads of Tiny Titan’s games on Android and iOS phones, and eight of the company’s titles have been named one of Apple’s best new games upon release.

“Ontario Creates has been a tremendous partner in helping us grow and stabilize as we grow.”

Jeff Evans, founder and CEO, Tiny Titan Studios

Promoting Ontario Authors

Success story: Annick Press

Annick Press has published picture books, fiction and non-fiction for more than three decades, including works by authors Robert Munsch, Kathy Stinson and Ruth Ohi. The goal of co-founders Rick Wilks and Anne Millyard was to provide literature for children that reflects Canadian sensibilities and relevance to their lives.

The prominence Canadian writers have gained through Annick and other publishers has helped grow the industry. Early on, Millyard and Wilks worked out a distribution and publicity plan that benefited from grants and capitalization support. Ontario Creates’ support has allowed Annick to develop and finance author videos, classroom whiteboards and other multimedia communications that reach audiences.

Recent award-winners include Fire Song by Adam Garnet Jones (Honour Book – Burt Award for First Nations, Inuit and Métis Young Adult Literature) and The House of One Thousand Eyes by Michelle Barker (Next Generation Indie Book Award).

Ontario Creates Baseline Gender Study and Key Role Framework

In 2018-19, Ontario Creates commissioned a study to collect baseline data on companies and projects the agency has funded. This focused on gender representation in key business and creative roles. The results indicate that while female representation in key roles is increasing, women are underrepresented in most senior roles across all sectors. The exception is second-tier business roles in television, where women account for 61% of the workforce.

Female Representation in Key Business Roles by Sector, 2017-18
Service Improvements

Tax Credit Queues Reduced

As a result of process improvements introduced in 2018/19, Ontario Creates’ Tax Credits and Financing Department saw significant year-over-year progress in reducing Ontario Creative Industries Tax Credit queues.

- Aggregate analysis time for all tax credits was 25% faster than in 2017/18
- Processing time for film and television credits was improved by 40% – 55%
- 3,183 products were reviewed – a 4% increase over 2017/18

Direct Deposit Rolls Out

In December 2018, Ontario Creates improved customer service and efficiency and reduced its carbon footprint by offering electronic direct deposit to grant recipients. Electronic payments are received faster than cheques and eliminate paper use and fuel consumption for delivery. This initiative comes after the agency rolled out direct deposit to vendors and suppliers in 2017.

Electronic Access

Ontario Creates has established an Online Research Library, Online Application Portal, and Online Board Portal to streamline industry access to market intelligence and grant and tax credit applications, and to ensure secure Board access to business documents. These systems allow the agency to go largely paperless in application processing, help simplify the process for businesses, provide one window of communication with applicants, and facilitate jury deliberations. They are monitored and enhanced on a regular basis in response to user feedback.

Administrative Efficiencies

In order to save money and ensure optimal performance, Ontario Creates has eliminated the use of fax machines, cut photocopier costs (down 30% from 2017-18), and implemented a low-cost phone solution. The agency is transitioning to cloud-based services and uses electronic publications and communications wherever possible.
Ontario’s Creative Industries Tax Credits

Ontario Creates administers five provincial tax credit programs across the film and television, interactive digital media and book publishing industries. These tax credits are key components in the viability and continued growth of these sectors in the Province. They provide important financial incentives that help attract and retain business in Ontario. They enhance companies’ capacity to invest and reinvest, hire Ontario talent and make a substantial contribution to the Province’s economy.

**Ontario Film And Television Tax Credit (OFTTC)**

**Ontario Computer Animation And Special Effects Tax Credit (OCASE)**
An 18 per cent refundable tax credit on Ontario labour expenditures for digital animation and visual effects created in Ontario for film and television productions.

**Ontario Interactive Digital Media Tax Credit (OIDMTC)**
A 40 per cent refundable tax credit (35 per cent for development under fee-for-service) on eligible expenditures to develop IDM products in Ontario, available to Canadian and foreign-controlled corporations.

* Totals include a small number of Ontario Sound Recording Tax Credit (OSRTC) applications/certifications. OSRTC was discontinued as of the 2015 Ontario Budget, however a company may still claim the OSRTC for sound recordings that commenced before April 23, 2015, but can only calculate the tax credit on expenditures incurred before May 1, 2016. Total estimated value of OSRTC in 18/19 is $182,986 with a project value of $1,327,850.

Operational Performance, Outcome and Output-based Measures, Targets Achieved and Action to Be Taken When Not Achieved

Performance measures for the agency have been developed to provide regular feedback on whether the funds, programs, and other activities are meeting their objectives. The agency’s outcome and output-based performance measures were updated in 2017-18 to support the rollout of the strategic plan and several new measures were added at that time. In 2018-19 select new measures were added or changed related to new activities and to reflect methodological changes in source data.

Ontario Creates met or exceeded most 2018-19 performance targets, noting the following:

• The estimated value of tax credits was greater than anticipated in 2018-19 due to improved processing times, which meant more products were certified within the year, particularly for the OPSTC and OIDMTC. Overall, tax credit turnaround time continues to decline. The average is significantly less than the target and our final for the year was 3.9 weeks, compared to a high of 8.8 weeks in 2015-16.

• Media impressions related to the Trillium Award fluctuate annually for various reasons (e.g. the presence of a well-known author among the nominees). This year’s results were below target, particularly when compared against the elevated results achieved in 2017-18 due to additional activities and ad spend related to the Trillium’s 30th anniversary. Overall, Ontario Creates’ total media impressions were well above target at 184.6 million.

• Ontario Creates achieved more than double the target on Weeks of work created and/or retained through Film Fund and IDM Fund and exceeded last year’s numbers by more than 10,000 weeks of work.

• The Agency’s representative in the LA Film Office was vacant for several months, which negatively impacted the number of production leads developed by the LA Office. A new representative is now in place following a competitive procurement and it is anticipated that the number of production leads will begin to return to typical levels.

• For International Business Development, Ontario Creates exceeded targets for Number of foreign markets at which Ontario participants are supported through export activity support, but it is lower than previous years. Due to travel restrictions, the number of markets at which Ontario Creates had a strategic presence was reduced to 5, compared to 17 in 2017-18 year. Similarly, the agency’s collaboration initiatives were also affected by directives to restrict discretionary spending.

• Ontario Creates met all Business Intelligence performance indicator targets other than Number of industry profiles updated. Profile content updates were delayed somewhat as we refreshed the look of the publication to match the agency’s new branding.
Ontario Creates tracks key risks on a regular basis and submits quarterly risk assessment reports to the Ministry with respect to risk factors, impact, and associated mitigation strategies.

Significant risks facing the agency and the creative industries in 2018-19 included the following:

**High volume of tax credit applications:**

- Linked to the higher-than-anticipated tax credit value mentioned above, Ontario Creates continued to experience and mitigate risks related to the high volume of products applying for Tax Credits. The high volume can lead to slower payment to applicants and lengthy processing timelines, which may jeopardize company stability and productivity.

- Ontario Creates mitigates this risk through risk assessment processes to assist with queue triage. Ontario Creates also received permission for three temporary FTEs and assigned a new Team Lead to focus on process improvements to assist in mitigating the risks of high application volume.

**Film/TV workforce shortages:**

- The performance measure Weeks of work created and/or retained through the Film Fund was particularly high. While not causally related, there is a connection between the elevated results seen and a strategic risk we have identified around workforce shortages in the film and television industry. As dedicated studio space has grown in the GTA and Ottawa, there are an increased number of projects, and a risk of insufficient capacity to accommodate all activity with the existing base of trained crew.

- Ontario Creates is participating in a Workforce Development Group alongside unions and other industry players who have focused efforts on identifying ways of growing capacity in the industry.

**Limited access to export markets:**

- Export and collaboration activity was significantly reduced in 2018-19 due to discretionary spending restrictions in place. Export activity including international sales is fundamental to growing Ontario businesses. Restrictions placed on out-of-province travel for staff may mean that Ontario Creates can’t provide the kind of expert on-the-ground support and B2B networking in key markets that has proven to leverage Ontario presence into better outcomes for Ontario companies. There is also the risk that competitive advantage will be lost if Ontario does not have an on-the-ground staff presence at markets where other provinces are promoting their jurisdictions.

- As a mitigating strategy, Ontario Creates is continuing to support companies to attend foreign markets and conduct export activities, and is establishing partnerships to leverage existing resources. Ontario Creates continues to work with other levels of government to pursue opportunities, including participating in the Federal, Provincial and Territorial Cultural Promotion and Diversity in a Digital Age Working Group, which was tasked with developing an inventory of strategies and initiatives (e.g. programs, services) that support Canadian cultural promotion and export.
Insufficient resources to service growing demand:

• Ontario Creates continues to track a broader risk that increased demand for Ontario Creates services without adequate resources to service this demand may lead to slow customer service and disgruntled stakeholders. At its worst, it may mean that stakeholders move their productions and companies to other jurisdictions where their projects can be supported.

• Regular performance results measurement assists in identifying any problem areas in terms of spikes in demand and declines in ability or rate at which the demand can be met. Agency staff works to continually implement business-improvement processes in order to service clients more efficiently, including the recent introduction of online payments; however, this will not mitigate a lack of program funding.

The business plan included certain assumptions regarding the utilization of deferred revenue of the Ontario Music Office to program and grant expenditures. Actual deferred revenue utilized was less than planned, and will be deployed in subsequent years. Revenue and expenditures of $1.1 million decreased accordingly in the year.

Agency revenue is sourced primarily from the Ministry of Tourism, Culture and Sport (93%). Self-generated revenues are comprised of tax credit administration fees, investment income and other recoveries.

Total expenditures were less than forecast in the Business Plan as a result of Government direction to reduce spending on discretionary activities such as professional development, media monitoring, industry/program activations and international travel. Several staffing vacancies also contributed to the expenditure reduction.

Contributing to the surplus was $0.5 million of funds remaining following the conclusion of the OPSTC/OCASE transitional grant program. These funds were internally restricted for use in the following two fiscal year for certain program initiatives.

Grant and related program expenditures decreased against business plan assumptions in areas including interactive digital media, industry development support and international business development.

Operating costs decreased due to efforts to improve efficiencies and target savings in connection with the government’s stated objectives.
How Financial and Non-Financial Factors Influenced Cost Savings Achieved

Ontario Creates remains committed to continuous business and operational process improvements, including finding and eliminating inefficiencies in order to create cost savings. From enhancing electronic access across all areas of operations to introducing administrative efficiencies such as electronic payment and direct deposit options for clients, the agency has been able to keep corporate expenditures low. As a result of these efforts, corporate expenditures for 2018-19 were 7.2% of the agency’s total budget, with the remaining 92.8% being direct, program-related spend.

In 2018-19, Ontario Creates was able to achieve cost savings in several areas due to increased efficiencies (as noted above), and to deferring, cancelling or scaling back projects as a result of restrictions on discretionary spending and travel. Cost savings were also achieved due to unexpected vacancies in several departments.

Due to restrictions on international travel and discretionary spending, Ontario Creates allocated fewer resources to strategic activations in international markets in 2018-19. This meant that Ontario Creates was unable to have a strong strategic presence at several important foreign markets which meant less on-the-ground support for Ontario companies looking to expand globally and fewer opportunities to develop important partnerships and inward investment opportunities. While this saved some operational funding for the agency, the overall affect has been less robust activation in export markets and less interest by foreign entities in Ontario as a jurisdiction for partnership. Ultimately, pulling back from these activities has had a negative impact on the agency’s ability to grow jobs and investment in the Province.
Management’s Responsibility for Financial Statements

The accompanying financial statements have been prepared by management in accordance with Canadian public sector accounting standards and are the responsibility of management. The preparation of the financial statements necessarily involves the use of estimates based on management’s judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. The financial statements have been properly prepared within reasonable limits of materiality and in light of information available up to September 24, 2019.

Management maintains a system of internal controls designed to provide reasonable assurance that the assets are safeguarded and that reliable financial information is available on a timely basis. The system includes formal policies and procedures and an organizational structure that provides for appropriate delegation of authority and segregation of responsibilities.

Ontario Media Development Corporation’s Board of Directors is responsible for ensuring that management fulfills its responsibilities. The Board has appointed an audit committee from among its own members. The audit committee meets periodically with senior management and the Office of the Auditor General of Ontario to discuss audit, internal control, accounting policy, and financial reporting matters. The financial statements are reviewed by the audit committee before approval by the Board of Directors.

The Office of the Auditor General of Ontario conducts an annual audit in accordance with subsection 14(1) of Ontario Regulation 672/00 of the Development Corporations Act. The auditor’s report outlines the scope of the auditor’s examination and opinion.

INDEPENDENT AUDITOR'S REPORT

To the Ontario Media Development Corporation and to the Minister of Tourism, Culture and Sport

Opinion

I have audited the financial statements of the Ontario Media Development Corporation (OMDC), which comprise the statement of financial position as at March 31, 2019, and the statements of operations, changes in net assets and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In my opinion, the accompanying financial statements present fairly, in all material respects, the financial position of OMDC as at March 31, 2019, and the results of its operations and its cash flows for the year then ended in accordance with Canadian public sector accounting standards.

Basis for Opinion

I conducted my audit in accordance with Canadian generally accepted auditing standards. My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I am independent of OMDC in accordance with the ethical requirements that are relevant to my audit of the financial statements in Canada, and I have fulfilled my other ethical responsibilities in accordance with these requirements. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the OMDC's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless OMDC either intends to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing OMDC's financial reporting process.

Continued on next page
Auditor’s Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of OMDC’s internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on OMDC's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor’s report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor’s report. However, future events or conditions may cause OMDC to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

Notes to Financial Statements
March 31, 2019

1. BACKGROUND
   The Ontario Media Development Corporation (the 'Corporation'), also known as Ontario Creates, is an agency of the Ministry of Tourism, Culture and Sport of the Government of Ontario created under Regulation 672/00 of the Development Corporations Act, and as such is not required to pay income taxes. The Corporation promotes the economic growth of Ontario's cultural media sector and focuses on strategic partnerships among all the industries - film, television, sound recording, book and magazine publishing and interactive digital media. The Corporation is classified as a government not-for-profit organization for accounting purposes.

2. SIGNIFICANT ACCOUNTING POLICIES
   These financial statements have been prepared by management in accordance with the accounting standards for government not-for-profit organizations included in the Canadian Public Sector Accounting Standards ('PSAS').

   Significant accounting policies followed in the preparation of these financial statements include:

   (a) Capital Assets
   Capital assets are recorded at cost less accumulated amortization. Capital assets are amortized on a straight-line basis over the following terms beginning in the year of acquisition:

<table>
<thead>
<tr>
<th>Asset Type</th>
<th>Amortization Period</th>
</tr>
</thead>
<tbody>
<tr>
<td>Furniture and Office Equipment</td>
<td>10 years</td>
</tr>
<tr>
<td>Computer Hardware</td>
<td>3 years</td>

<tr>
<td>Computer Software</td>
<td>3 years</td>
</tr>
<tr>
<td>Website</td>
<td>3 years</td>
</tr>
<tr>
<td>Leasehold Improvements</td>
<td>5 years</td>
</tr>
</tbody>
</table>

   (b) Revenue Recognition
   Unrestricted government base operating grants are recognized as revenue in the period received. Restricted government grants are deferred and recognized as revenue in the year in which the related expenses are approved.

   Tax credit administrative fees are recognized when earned, which is normally upon receipt. The return of investment under assistance programs is recorded on a cash basis because a reasonable estimate of the amounts to be collected cannot be made.

   (c) Grants and Recoupable Advances
   Grants and recoupable advances are recorded as expenses and accounts payable and accrued liabilities in the year that the Corporation approves the grant or advance. As they are subject to certain performance conditions placed on the recipients, they are reflected net of an allowance for estimated grants or recoupable advances to be rescinded or recovered. Grants and advances approved in prior years that are rescinded or recovered in the year in excess of the allowance are recorded as revenue.

   (d) Contributed Services
   Contributed services are received for certain events and are not recognized in the financial statements.
(e) Cash and Cash Equivalents
Cash and cash equivalents includes cash on hand, current bank accounts, bankers’ acceptances and bearer deposit notes from Canadian chartered banks with terms of maturity of less than 93 days.

(f) Short-term Investments
Short-term investments are comprised of bankers’ acceptances and bearer deposit notes from Canadian chartered banks with terms of maturity of 93 days to one year.

(g) Use of Estimates
The preparation of financial statements in accordance with Canadian public sector accounting standards requires that management make estimates and assumptions that affect the reported amounts of assets and liabilities as at the date of the financial statements and the reported amounts of revenue and expenses. Actual results could differ from management’s best estimates as additional information becomes available in the future. The items subject to the most significant estimates are amortization of capital assets, employee future benefits, and accounts payable and accrued liabilities.

(h) Financial Instruments
The Corporation’s financial instruments which consist of cash and cash equivalents, short term investments, accounts receivable, accounts payable and due to the province are all valued at cost. As cost approximates fair value given the short term nature of the maturities, no statement of remeasurement gains and losses is included.

(i) Employee Benefits
The Corporation follows PSAS requirements for accounting for employee future benefits, which includes post-employment benefits payable upon termination. Under these requirements, the cost of post-employment benefits is charged to operations annually as incurred.

3. FINANCIAL INSTRUMENTS
Credit and Interest Rate Risk – Credit risk may arise from the possibility that a creditor defaults on payment obligations, while interest rate risk is inherent in investments due to fluctuations in interest rates. The Corporation’s exposure to credit and interest rate risk is minimal as the Corporation’s cash and cash equivalents and short term investments have relatively short maturity spans and are held with leading Canadian chartered banks.

Cash and cash equivalents include $22.555 million (2018 - $18.974 million) of bankers’ acceptances and bearer deposit notes from Canadian chartered banks with interest rates ranging from 1.76% - 2.22% (2018 - 1.30% - 1.54%). Short-term investments of $10.061 million (2018 - $10.002 million) consist of bankers’ acceptances and bearer deposit notes from Canadian chartered banks with interest rates ranging from 1.73% - 2.33% (2018 - 1.62% - 1.70%).

Market Risk - Market risk arises when the value of an investment portfolio decreases as a result of changes in the volatility of interest rates, stock prices and foreign exchange risks. The Corporation is not exposed to any market risk due to the nature of its investments.

Liquidity Risk - Liquidity risk is the risk that the Corporation will be unable to fulfill its obligations on a timely basis or at a reasonable cost. The Corporation manages its liquidity risk by monitoring its operating requirements. The Corporation prepared budget and cash forecasts to ensure it has sufficient funds to fulfill its obligations.

There have been no significant changes to the risk exposure from 2018.

6. MINISTRY OF TOURISM, CULTURE AND SPORT FUNDING

The Ministry of Tourism, Culture and Sport (a related party) provided a $28.450 million (2018 - $28.489 million) base operating grant which has been recognized as revenue in the fiscal year. The Ministry also provided funding of $15 million for the Ontario Music Fund (2018 - $15 million), $1.5 million for the Diversity Fund (2018 - $1.5 million), and $0.3 million for Canadian Books in Ontario Schools (2018 - $0.3 million) of which the following was recognized as revenue in the Statement of Operations and the remainder was deferred.

Revenue recognized for the Ontario Music Fund includes $14.037 million (2018 - $14.001 million) in grants, $0.829 million (2018 - $0.923 million) in Operating expenses and is net of prior year grants rescinded or recovered in the year of $0.115 million (2018 - $(0.120) million).

In connection with tax credit rate reductions announced in the 2015 Ontario budget to both the Ontario Production Services Tax Credit and the Ontario Computer Animation Services Tax Credit, the Tax Credit Transitional Grant provides relief to qualifying productions that did not otherwise meet eligibility criteria for rate grandfathering measures. Final payments under the program were made in the year totalling $0.136 million, resulting in an unspent amount of $0.498 million. The Corporation has internally restricted this amount for certain initiatives to be undertaken over a two-year period.

9. LEASE EXPENSES

The Corporation is committed under operating leases for premises and office equipment, with future minimum payments as follows:

<table>
<thead>
<tr>
<th></th>
<th>($ 000's)</th>
</tr>
</thead>
<tbody>
<tr>
<td>2020</td>

<td>257</td>
</tr>
<tr>
<td>2024</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>1,537</td>
</tr>
</tbody>
</table>

The premises lease was renewed commencing on November 1, 2018 and expiring on October 31, 2023. The lease contains an option to extend the term beyond October 31, 2023 for a period of five years. The Corporation is committed to future minimum payments for its premises lease of $1,508,000 and its proportionate share of realty taxes and operating expenses which amounted to $347,000 during 2019 (2018 = $323,000). These amounts are expected to be similar in future years. Infrastructure Ontario (a related party) makes the lease payments to the landlord, and is subsequently reimbursed by the Corporation.

The Corporation is committed to future minimum payments totalling $29,000 under its operating leases for office equipment, which expire at various times over the next five years.
10. OBLIGATION FOR EMPLOYEE FUTURE BENEFITS

(a) Pension Plans

The Corporation’s full-time employees participate in the Public Service Pension Plan (PSPP) or the Ontario Public Service Employees’ Union Pension Plan (OPSEU-PP), which are defined benefit pension plans for employees of the Province and many provincial agencies. The Province of Ontario, which is the sole sponsor of the PSPP and a joint sponsor of the OPSEU-PP, determined the Corporation’s annual payment to the funds. Since the Corporation is not a sponsor of these funds, gains and losses arising from statutory actuarial funding valuations are not assets or obligations of the Corporation, as the sponsors are responsible for ensuring that the pension funds are financially viable. The Corporation’s annual payments of $513,000 (2018 - $513,000) are included in operating expenses in the Statement of Operations.

(b) Accrued Employee Benefits Obligation

The costs of any legislated severance and unused vacation entitlements are recognized when earned by eligible employees. The total cost for the year amounts to $107,000 (2018 – $43,000) and are included in salaries, wages and benefits, disclosed in Note 7. During the year, the accrued employee benefits obligation was reduced by $146,000 (2018 - $255,000) due to a curtailment resulting from changes under the Public Service Act of Ontario. The total liability for legislated severance and vacation is reflected in the accrued employee benefits obligation, less any amounts payable within one year, which are included in accounts payable and accrued liabilities, as follows:

<table>
<thead>
<tr>
<th></th>
<th>2019 ($000’s)</th>
<th>2018 ($000’s)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total liability for legislated severance and vacation</td>
<td>1,069</td>
<td>1,064</td>
</tr>
<tr>
<td>Less: Due within one year and included in accounts payable and accrued liabilities</td>
<td>(367)</td>
<td>(364)</td>
</tr>
<tr>
<td>Accrued employee benefits obligation</td>
<td><strong>702</strong></td>
<td><strong>700</strong></td>
</tr>
</tbody>
</table>

The legislative severance portion of the accrued benefit obligation was calculated based on the following assumptions: discount rate of 3.25% (2018 - 2.90%); and estimated average years to retirement of 9.84 years (2018 - 10.85 years). Due to the curtailment of the plan in 2015, no assumption of wage and salary escalation was used (2018 – 0%). These assumptions are management’s best estimates.

(c) Other Non-Pension Post-Employment Benefits

The cost of other non-pension post-retirement benefits is determined and funded on an ongoing basis by the Province (a related party) and accordingly is not included in these financial statements.
11. PUBLIC SECTOR SALARY DISCLOSURE

Section 3(5) of the Public Sector Salary Disclosure Act (1996) requires disclosure of Ontario public sector employees who were paid an annual salary in excess of $100,000 in the calendar year 2018. For the Corporation, this disclosure is as follows:

12. CONTINGENCIES

Contingencies refer to possible legal claims that have been made against the Corporation, the ultimate outcome of which cannot be predicted with certainty. The outcome and associated legal fees of current legal proceedings are not expected to have a material or adverse effect on the Corporation’s results and management does not believe any provisions for losses are necessary at this time. No amounts have been recognized in the accounts for claims made against the Corporation.
