Copacabana Brazilian Steakhouse (L4754)

Givins Street (L15656)
Givins Street (L15656)
This 2100-sq ft three-storey home is located in the heart of Toronto’s West Queen West area. The home’s exterior is Bay and Gable, a late Victorian architectural style (1870-1890) unique to Toronto. The interior of the house has been redesigned by award-winning architect Wanda Ely. House has hardwood floors throughout and 10 ft. ceilings on the first floor. Its main features are the library, kitchen and dining room, and master bedroom. Library has the original working fireplace surrounded by floor-to-ceiling built-in bookshelves. The kitchen-dining room features modern appliances with black stone countertops and sink, palau celeste tile, and natural wood built-ins. There are tin ceilings throughout the first floor with the dining room’s portion painted matte black. The house is on a one-way street with street parking. Additionally, there is also a large parking lot less than a block away.

Former Kemptville Campus, University of Guelph (L14376)

Built in 1917, the Kemptville campus is situated on 847 acres, approximately 630 acres of crop and forest, 140 acres of dairy and livestock buildings and 80 acres of campus. It expanded in the 1940s and now holds 52 buildings that range in size from sheds to large administration buildings. The campus has many brick buildings with classrooms, science and food labs, library, meeting rooms, sports fields, a cafeteria and dorm facilities. The basement has an eerie atmosphere to it, perfect for those mysterious and supernatural projects. There is a maple sugar bush and production facilities. There is also a kilometre of two lane paved road running through a pine forest - created specifically for a film projects.
